BRASSY ACADEMY(INTERNSHIP)

FRONT END DEVELOPMENT

UI DESIGN

KODAIAGRI ORG-CLONE:

Developed a responsive UI design for a clone of the Kodaiaagri.org website using HTML,CSS, and Bootstrap.

Techniques like Media queries ,Flexbox ,and Grid layouts. Implemented collapsible navigation bars, improving.

REACTJS UI DESIGN: Willow Lane-Clone:

I develop into UI design using ReactJs . Leveraging ReactJs features such as useState and useEffect hooks

Along with concepts like routing, props, and components.

I deepened my understanding of ReactJs fundamental sand learned to build dynamic user interfaces.

MERN STACK DEVELOPMENT: Movie Booking:

I created a dynamic Movie Booking using the MERN stack (MongoDB,ExpressJs,ReactJs,NodeJs).

ReactJs for the Frontend ,Implemented features like movies listings ,user authentication ,and a shopping cart.

On the Backend NodeJs and ExpressJs handled server logic and API requests, while MongoDB stored data.

Use postman tool create api, using get,post,put,delete method.

KEYSTRENGTH

- Proficient in Front-End
- Attention to Details
- Continuous Learning
- Project Management

LANGUAGE:

- English
- Tamil
